Common sense would tell you that in a Christian environment, there are certain content-related sites that we do not wish our students to visit. Only sites that reflect our **FOUR RESPECTS** which are located in our handbook are acceptable. All other websites will be eliminated through filtering software and filtering humans to the best of our ability.

In case you're not sure, here are some examples that are no-no's:

- ⇒ Personal safety– chat rooms, giving away personal information, social networking
- ⇒ Illegal Activities - do we really need to describe these?
- ⇒ System Security - No hacking.
- ⇒ Inappropriate Activity - cyber bullying, naughty language, spreading of lies,... you get the picture
- ⇒ Copying Without Permission - plagiarism, copyright abuse, ... in other words, no cheating
- ⇒ Inappropriate Content - this includes everything from bomb building to pornography.
